🐙 adosar

🔑 [Zv2Uk0AAAAAJ](#)

3 January 2000

If the implementation is easy to explain, it may be a good idea.

🎓 Education

- 2024–TBA PhD, Physical & Computational Chemistry, Department of Chemistry, University of Crete
- 2022–2024 MSc, Physical & Computational Chemistry, Department of Chemistry, University of Crete
9.86 (Excellent)
- 2018–2022 BSc, Chemistry, Department of Chemistry, University of Crete
8.64 (Excellent)
- First of the class — obtained in 3.5/4.0 years**

🎓 Master thesis

- Title From the Potential Energy Surface to Gas Adsorption via Deep Learning
- Supervisor George E. Froudakis
- Description Developing a deep learning based method for predicting gas adsorption in porous materials using 3D energy images.
- Repository https://github.com/adosar/master_thesis

🎓 Bachelor thesis

- Title Screening of MOFs for H₂ Storage via Machine Learning
- Supervisor George E. Froudakis
- Description Developing a machine learning based method for fast screening of large databases, in order to identify top performing MOFs for hydrogen storage.

📣 Scholarships – Awards

- 2024 Postgraduate fellowship, Independent Power Transmission Operator S.A. Fellowship
- 2024 Postgraduate fellowship, Maria Michail Manasaki Bequest Fellowship
- 2023 Chatzimaradaki Award, Department of Chemistry, University of Crete
- 2022 Undergraduate scholarship, Stamatiou Foundation
- 2021 Undergraduate scholarship, Stamatiou Foundation
- 2020 Undergraduate scholarship, Stamatiou Foundation

Presentations

-  2024 COST Action EU4MOFs, Istanbul
-  2023 Chatzimarini Seminar, Heraklion
-  2023 1st Mediterranean Conference on Porous Materials, Rethymnon
-  2022 Chatzimarini Seminar, Heraklion
-  2022 XXXVI Pan-Hellenic conference on Solid-State Physics and Materials Science, Heraklion

Workshops

- 2023 Computational Materials Science, National Kapodistrian University of Athens, Online
- 2022 Computational Materials Science, University of Ioannina, Online
- 2021 Computational Materials Science, University of Patras, Online
- 2021 DCMS Materials 4.0 Summer School, TU Dresden, Online

Computer skills

Operating Systems	Fedora Linux, Ubuntu, Windows
Programming Languages	Python, Fortran
Markup Languages	L ^A T _E X, Markdown
Other Tools	Git, Github, Sphinx, Vim, MSOffice

Working experience

2023, 2024	Teaching assistant on the Laboratory of Physical-Chemistry I, Department of Chemistry, University of Crete
2023	Teaching assistant on the Laboratory of Physical-Chemistry II, Department of Chemistry, University of Crete

Languages

English	Proficiency, University of Michigan
Greek	Native language
